

Adiwana Suweta's Sustainability Commitment

At Adiwana Suweta, we are deeply committed to making a positive impact on the environment and supporting the local community. Our dedication to sustainability includes a proactive approach to reducing greenhouse gas emissions and fostering a greener future. To reduce our environmental impact, we aim to cut electricity and water usage by 5% next year. We carefully monitor waste by sorting it into organic, inorganic, and residue categories, with designated bins placed throughout the hotel, including in the canteen and back-office areas.

To further enhance our sustainability efforts, we have introduced initiatives such as installing solar-powered garden lighting, motion-sensor lights in office spaces, and promoting responsible water use among both staff and guests.

We are equally committed to preserving local biodiversity and promoting animal welfare. We encourage our guests to support animal welfare principles and train our employees and stakeholders on biodiversity protection.

Respecting and protecting human rights is another core value at Adiwana Suweta. We believe in fair and respectful treatment for all. To uphold this, we conduct regular training for our staff to prevent discrimination. Our Standard Operating Procedures (SOPs) include a comprehensive anti-discrimination and human rights policy, outlining the types of discrimination, reporting processes, and complaint-handling procedures.

The welfare of children and young people is of paramount importance to us. We strictly enforce a policy of reporting any suspected child exploitation or abuse directly to the police. We encourage our guests, staff, and visitors to report any concerns to local authorities by calling 112 or visiting the nearest police station at Jalan Raya Andong, Ubud.

Our staff receive training on identifying and addressing child exploitation cases during their orientation, empowering them to support our guests and the community in reporting any concerns related to Adiwana Suweta.

Through these commitments, we are devoted to creating a safe, respectful, and sustainable environment for everyone.
